

Introduced in 1940, the Russian T34 series was to stay in production for over 20 years. With its 28 mm high bust tank in use from 1940 to 1943, the T34/76C equipped with 27 mm 16 cwt. carried 76.82 mm machine guns, and had a maximum speed of 32 mph on level ground.

In 1940, the series T34 series was fabricated in the Soviet Union. It was the only tank to be produced in such large numbers. The T34/76C was the most common tank of the series, and was produced in the Soviet Union. It was the only tank to be produced in such large numbers.

In 1940, the series T34 series was fabricated in the Soviet Union. It was the only tank to be produced in such large numbers. The T34/76C was the most common tank of the series, and was produced in the Soviet Union.

In 1940, the series T34 series was fabricated in the Soviet Union. It was the only tank to be produced in such large numbers. The T34/76C was the most common tank of the series, and was produced in the Soviet Union.

In 1940, the series T34 series was fabricated in the Soviet Union. It was the only tank to be produced in such large numbers. The T34/76C was the most common tank of the series, and was produced in the Soviet Union.

In 1940, the series T34 series was fabricated in the Soviet Union. It was the only tank to be produced in such large numbers. The T34/76C was the most common tank of the series, and was produced in the Soviet Union.

In 1940, the series T34 series was fabricated in the Soviet Union. It was the only tank to be produced in such large numbers. The T34/76C was the most common tank of the series, and was produced in the Soviet Union.

In 1940, the series T34 series was fabricated in the Soviet Union. It was the only tank to be produced in such large numbers. The T34/76C was the most common tank of the series, and was produced in the Soviet Union.

In 1940, the series T34 series was fabricated in the Soviet Union. It was the only tank to be produced in such large numbers. The T34/76C was the most common tank of the series, and was produced in the Soviet Union.

In 1940, the series T34 series was fabricated in the Soviet Union. It was the only tank to be produced in such large numbers. The T34/76C was the most common tank of the series, and was produced in the Soviet Union.
